8-port Gigabit Easy Managed Ethernet Switch (ONV-H3008SM)

OVERVIEW

The ONV-H3008SM is a gigabit Easy managed Ethernet switch independently developed by ONV. It has 5*10/100/1000Base-T adaptive RJ45 ports. Each port can support wire-speed forwarding. The ONV-H3008SM can support Web management, ONV-NMS management cloud platform, and mobile APP operation and maintenance management, which can realize security network topology management, link aggregation, port management, port mirroring, and remote operation and maintenance. It has high reliability and is easy to install and maintain. It has a fast switching function and multiple access ports, which is suitable for access to LAN devices of various sizes. The large backplane and large cache switching chip solution improves the forwarding rate of large files and can effectively solve problems such as video freeze and picture loss in high-definition monitoring environments. It is suitable for hotels, banks, campuses, factory dormitories, small and medium-sized enterprises, and families to build economical, efficient, and real-time controllable transmission networks.

FEATURE

■ Gigabit rate, high-speed transmission

- ◇ Support non-blocking wire-speed forwarding.
- ◇ Support full-duplex based on IEEE 802.3x and half-duplex based on Backpressure.

- ◇ Gigabit RJ45 port, high speed, fast transmission, convenient for users to flexibly network, and meet various high-definition network requirements.

■ Extreme Optimization, minimalist application

- ◇ Real-time fault alarm and fault location.
- ◇ Remote upgrade, remote restart, and factory reset.
- ◇ Local platform, cloud platform, and mobile APP O&M management.
- ◇ Visualized network topology management, VLAN division, QoS, link aggregation, ring network management, port mirroring, port control, and bandwidth management.
- ◇ The easy-to-use network management function enables rapid network deployment and centralized operation and maintenance through the operation and maintenance platform.

■ Stable and reliable

- ◇ CCC, CE, FCC, RoHS.
- ◇ Low power consumption, no fan, ABS and PC environmental protection plastic shell.
- ◇ The user-friendly panel can show the device status through the LED indicator of PWR and Link.
